

Workshop – Introduction to the World of Grasses

Presented by **Naomie Sunner**
VINC's Propagation Co-ordinator

Grasses – most people overlook species from the *Poaceae* (grass) family, however these plants are among the most important species in our local ecosystems and are arguably the most important plant family to our civilisation – think – **wheat, rice, barley**.

This workshop will introduce you to the world of grasses and give you the skills to be able to see their **form, flowers and leaves** and begin to identify them in the field.

Naomie has been growing locally indigenous grasses for almost two decades – yet is still learning a great deal about this amazing plant family and is keen to impart her knowledge and experience.

When: Saturday 9th December 2017

Time: 1pm – 4pm

Cost: \$60.00 members

\$65.00 non-members
